

THE COMRA EFFECT

AN INTRODUCTION
BY
ADRIAN MARSH

ON BEHALF OF THE FOUNDATION FOR TOLTEC RESEARCH

THE TOLTEC SYSTEM OF KNOWLEDGE

- TOLTEC ...means ...A Man or Woman of Knowledge ...
- Independent of race, gender, religion, country, language, or any other differentiating factors within humanity.
- Knowledge handed down from one generation to another over Aeons of time through oral and experiential training.
- Knowledge is NOT information, but rather - Experiential Knowledge of the Self.
- In the modern era expressed as The Toltec Teachings by Théun Mares a Toltec Seer, through personal and group training, books, and Toltec-Legacy.org website
- This logo signifies the Toltec Path of Freedom as expressed by Théun Mares, and differentiates these teachings from Meso-American traditions of Toltecquity, Nagualism, and Shamanism.
- The Toltec System of Knowledge is a Practical Exploration of the Great Spiritual and Physical Universes, and as such is a Facet of the Diamond of the One Life.

Conventional Science

The Exploration of Form ...

- Good exploration of the 10th physical world, or the Form side of Life.
- Seeks to answer:
 - What form is made-of ...
 - How form inter-acts ...
 - Application of physical theories, principles, and properties.
- Considered to be “objective” because Perception of the observer is NOT included/considered ...
- E.g. Electromagnetic spectrum.

Esoteric/New Science

The Quest for Knowledge ...

- An experiential exploration of the Great Manifestation across all of the 10 worlds.
- Seeks to study and reveal the great problems of the Physical and Spiritual Universes.
- The Why, Purpose, and Principles of our spiritual, esoteric, and physical existence.
- Under-stand (support), apply, and resonate with, the principles of the One Life ...
- E.g. Aetheric spectrum ...

ESOTERIC SCIENCE

- Many great scientific discoveries, innovation & invention, have started with a Vision or “flash” of Inspiration ...Creative Access to the Unknown via Feelings ... yet feelings are then excluded from the scientific interpretation, principles, and processes ...
- In essence Esoteric Science includes Feelings, whereas conventional science excludes feelings as “subjective” ...Esoteric Science is an Experience not a theory!
- Feelings (different from emotions) are Direct Irrational Knowledge that originate in the Aetheric Spectrum beyond our normal perception ...Objective Knowledge!
- Through feeling it is possible to Access and Explore all possible Knowledge and Perceptions in both the Physical and Spiritual Universes ...Collectively known as the Aetheric Spectrum ...
- Conventional science is a very small part of the Aetheric Spectrum in the physical world of form within only the common perception!
- To begin to explore Esoteric Science it is necessary to learn to Listen To, Trust, and Act Upon our feelings ...The instrument of feeling being the Heart Centre ...
- Esoteric Tools including Numerology, Astrology, Tarot, I-Ching, Sacred Geometry and the Golden Ratio ...can be used to do Vibrational Modelling and Synthesis in the Aetheric Spectrum ...A Framework of Understanding for the Intellect.
- To fully Explore the Aetheric Spectrum in our awareness it is necessary to acquire a Fluid Perception, have sufficient Self-Knowledge to navigate in the Unknown, and have a Focus of Intent beyond the form side of life ...

It is possible for any person to acquire this Self-Knowledge ...

coMra – COHERENCE ACHIEVED THROUGH MODULATION OF RADIANCES

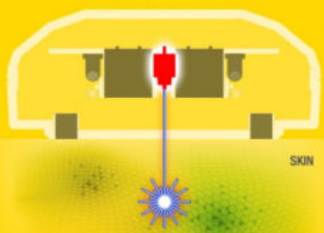

Radiant Life®
TECHNOLOGIES

coMra *Pro* 905

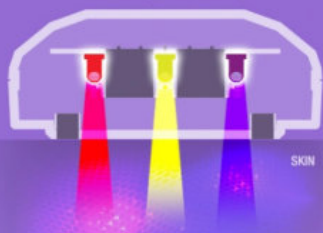

- The coMra Effect was conceived from the Unknown through a Vision in the form of a dream combined with Inspiration.
- The vision was called-forth based on the Collective Intent of a small group of people (including Adrian Marsh), working together with Coherent and Life-Supportive Purpose.
- The Feelings generated by the vision, the Direct Irrational Knowledge, revealed the Esoteric Principles of Operation through the perception of the Toltec System of Knowledge.
- The acronym coMra is a commercial trademark which represents a Coherent Process within the Regenerative Cycle of Life.
- Technological devices embodying the coMra Effect for Holistic Healing are developed by Radiant Life Technologies.
- coMra Holistic Healing utilises specific Vibrations in the Aetheric Spectrum, combined with elements of the Unknown, to encourage and support Regenerative Healing (learning) of the being, and hence the Rebalancing of dis-ease.
- The healing device Coherently Combines Laser and LED light, Magnetism, and Ultrasound in the Aetheric Spectrum.

MEDICAL SCIENCE AND ALLOPATHIC MEDICINE

Treating Physical Symptoms ...

- Medical science or modern medicine has made great strides in exploring the form/physical realm of a human being.
- Allopathic medicine seeks to bring the body and mind back into a healed state by focusing on the cause of the problem and removing it.
- The human being is considered to be only a complex biological/electro-chemical machine.
- Disease is addressed by simply removing, suppressing or replacing the faulty part.
- Medical diagnosis is used to confirm which parts within the physical body are not functioning properly.
- Modern medicine excels in:
 - Treatment using pharmaceutical drugs, radiation, and surgery,
 - Acute and emergency care,
 - Symptom and pain relief and postponing progression,
 - Fixing physical and mechanical problems with the body.
- Allopathic treatment can also lead to severe side-effects, long-term health problems, and for **Not taking any responsibility for our own health and well-being ...**

HOLISTIC HEALING AND ALTERNATIVE MEDICINE

Balancing the Collective Being ...

- Holistic healing considers the human being to be a coherent and collective synthesis of feelings, mind, emotions, body, and spirit.
- Alternative medicine and healing involves supporting the whole being in addressing the underlying dis-ease or imbalance.
- The Toltec Knowledge expresses the human being as the intelligent cooperation between the indwelling being (spiritual soul/Self) and the physical/mental/emotional vehicle (personality/self).
- The purpose of dis-ease or imbalance is for the collective being to learn how to restore balance from within.
- Most imbalance has its root in the prevalent thought forms of the common era we live in, and from karmic accumulation from unresolved individual and collective challenges of the past.
- Holistic healing and medicine excels in:
 - Preventative care and long-term healing,
 - Symptom and pain relief without side-effects,
 - Resolution of un-diagnosable or complex chronic conditions,
 - Healthy and balanced life-style, and Responsibility for our own learning and health and well-being.

PRINCIPLES FROM THE TOLTEC SYSTEM OF KNOWLEDGE

- The Nagal pronounced *na-hal* or the Spirit ...source of the Great Manifestation or One Life ...a spark of the spirit/nagal is within each of us ...the Unknowable!
- Intent is the only One Force within the One Life ...Mankind's purpose includes learning how to direct and unfold the force of intent. Intent is the ability to place and maintain the focus on what is most important.
- The Tonal is the Duality created by the Nagal when it differentiates itself in order to learn. Nagal and Tonal duality are self-similar and self-repeating at all levels of existence and throughout the Aetheric Spectrum.
- The Aetheric Spectrum or Great Manifestation collectively consists of the vast Unknown and also that which is already the Known.
- In Mankind the Tonal is the Luminous Cocoon or Aetheric Body:
 - The Mental sphere, Emotional sphere, and Physical sphere ...
 - Feelings ...Irrational direct knowledge ...Gateway to the Spiritual sphere or the indwelling being through the instrument of the heart centre.
 - The indwelling being (nagal within) is referred to as the Dreamer ...and the tonal referred to as the Dreamed.
 - The dreamer and the dreamed learn to Intelligently Cooperate with one another by forming Relationships within the One Life.

PRINCIPLES CONTINUED ...

- The Act of Perception in the Tonal is our ability to perceive anything in the web of life (One Life) and is based on the position of our assemblage point.
- The Assemblage Point is located between the shoulder blades, and aligns luminous fibres from the web of life to fibres inside our cocoon.
- Our entire Perception of Reality is formed from the alignment of fibres by the assemblage point. In the final analysis we are the Creators of Our Own Reality ...
- Our own Personal Power is the product of the Fluidity of our Perception! ...Our ability to perceive the One Life beyond the common perception.
- The Regenerative Cycle represents the Flow of Power from the Spirit ,through the Aetheric spectrum in the tonal in manifestation, and then back again to the Spirit with additional Awareness from Expression.
- The Law of Economy ensures that this Flow of Power in the One Life can take the most Efficient and Economical path ...The path of least resistance!
- Dis-ease results from unbalancing the Flow of Power in any aspect of the tonal ... mental, emotional or physical, or frustrating intelligent cooperation with the dreamer.
- The coMra Effect is an experiential process where the individual's Intent for Self-learning and hence True Healing is amplified ...Assisting with Re-balancing the Flow of Power and Re-storing the Regenerative Cycle within the Tonal ...

THE AETHERIC SPECTRUM

- Otz Chiim or Living Tree - “Tree of Life” representing esoterically the vibrational 10 levels/worlds of existence of The Great Manifestation.
- The very bottom/last 10th world is the dense physical world of form, where we incarnate into the physical tonal.
- All others levels/worlds exist at different layers of Vibration, and together known as the One Life.
- The inter-connections are unique qualities of awareness or experiential knowledge, known as the Jewels of Awareness.
- In Esoteric Science the Tree of Life is known as the Aetheric Spectrum, of which the electromagnetic spectrum in conventional science is a part within the 10th world of form.
- All experience, perception, and hence learning in life is based on Coherence which is the Inter-Dependence, Inter-Relationship, and Inter-Action of Aetheric vibrations.
- Our awareness can experience and explore any aspect of the Aetheric spectrum by aligning our perception correctly.
- Fluidity of Perception can be learned and is required to experience fully the One Life ...Ultimately leads to Totality of the Self ...All Knowledge possible to experience as man!

THE JEWELS OF AWARENESS

- The Flow of Power into manifestation follows the path of Intent into the Spirit's Fourfold Purpose ...East -> West -> South -> North.
- Each Pole of the Spirit's Purpose clusters together a unique set of Vibrational Qualities known as the Jewels of Awareness.
- The combination of inter-acting Jewels in any moment defines the underlying Experiential Knowledge available in any moment ...all the Facets of the Diamond of the One Life.
- The Act of Perception aligns aspects of this available experiential knowledge with our current Awareness in each moment based on our Intent.
- 21 Jewels of Awareness, each of which must be fully mastered in order to achieve Totality of the Self ...All Knowledge both Unknown and Known available to man-kind.
- 11 Dark Jewels, which generate the necessary friction in life to present us with challenges to learn from ...each must be worked with on the journey to Totality of the Self.
- 1 Jewel of Freedom and 1 of Universality, which reflect the purpose and unity of the One Life.
- The Forbidden Jewels ...Knowledge that cannot be experienced whilst retaining our man-kind.

THE ESOTERIC SCIENCE OF NUMEROLOGY

- Conventional Mathematics lacks the necessary depth and quality of expression to work with the synthesis and relationship between the vibrations of the Jewels of Awareness.
- Numbers are considered to be one-dimension measures of quantity, and not the rich and expressive meaning of different vibrational qualities of life.
- Numerology is a part of the Mathematics of the Aetheric Spectrum where Inter-Dependence, Inter-Relationship, and Inter-Action of vibrations can be explored directly.
- Numerology is an Ancient science from antiquity and shows how life evolves through Synthesis, Expression, and Reflection of these Vibrational Qualities.
- Like conventional mathematics Numerology has a defined system of Principles and Laws in its synthesis and relationship and reduction of inter-acting vibrations.
- Here we will use numerological synthesis and reduction principles within the Aetheric spectrum to gain a correspondence with our technological embodiment of the coMra Effect.
- The Toltec Teachings Volume VII – “Numerology Explained” ...

THE REGENERATIVE CYCLE

- The Regenerative Cycle represents the Flow of Power from the Spirit ,through the Aetheric spectrum in manifestation, and then back again to the Spirit with additional Awareness from Expression.
- The Black lines with arrows show the flow of power progressing from the Unknowable / Unspeakable into the Great Manifestation and progressing down through all the levels of the Aetheric Spectrum 1 -> 10.
- The Blue lines show the flow of expression back to the Spirit from 10 -> 1, with additional awareness generated from Self-expression.
- This complete regenerative cycle represents the Evolution of Awareness within the Great Manifestation.
- As Man is the Microcosm of the Macrocosm the same regenerative cycle exists within each of us.
- Dis-ease can occur at any stage of the regenerative cycle where the flow of power is resisted/impeded/blocked resulting in imbalance.
- Holistic healing processes like the coMra Effect assist in Re-Balancing and Re-storing the flow of power in our regenerative cycle, and hence Supporting Inner Growth, Learning, and Well-Being.

THE REGENERATIVE CYCLE - MANIFESTATION INTO FORM

THE COMRA EFFECT

- The Three Great Bands of the Aetheric Spectrum are ever dynamically changing through the evolution of awareness.
- The Triangle of Vibration of each Great Band dynamically rotates around the Intent of the Spirit.
- The Regenerative Cycle defines the dynamic natural flow of power in and out of manifestation.
- Perceived all together within Man/Tonal - generates the experiential impression in feeling of a Pulsating and Rotating Nine Pointed Star with Colour, Sound, and Tactile Sensation.
- The Flow of Power through this experiential impression forms an Aetheric Vortex as it comes into and out of physical manifestation.
- The Vibrational Intent or Message conveyed through this flow of power depends on the qualities of the Jewels of Awareness that are illuminated by Intent.
- The coMra Effect occurs when this vibrational message inter-acts with the Intent of the being in the Flow of Power.
- Synthesis of this Vibrational Message by the being amplifies the Intent for Self-learning and Self-awareness, and hence True Healing ...Assisting with Re-balancing the Flow of Power and Re-storing the Regenerative Cycle within the Tonal ...

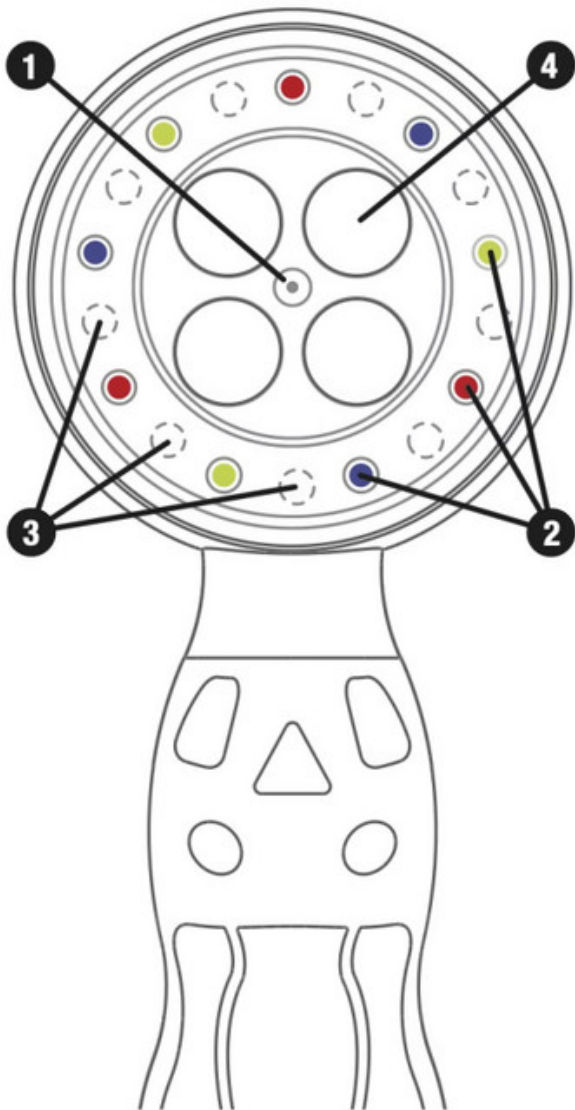

A COMRA EFFECT THERAPEUTIC DEVICE

Coherence Achieved Through Modulation of Radiances ...

- The coMra Effect can be manifested in form using a coherent combination of different radiances of specific vibrational quality:
 - The radiance type and source,
 - The geometry and arrangement of the radiance sources,
 - The sequence and timing of the radiance sources,
 - The modulation or pulsating of the radiance sources,
 - The power of the radiance sources.
- The materialised Vibrational Message of the coMra Effect depends on the Coherent Combination of Radiance qualities in the Aetheric spectrum. The intent for the message is set by using a coherent central radiance, in this case using laser diodes:
 - 905nm – Intent for Challenge / Self-Learning
 - 980nm – Intent for Warmth / Inner Well-Being
 - 520nm – Intent for Peace & Harmony / Inner Balance
 - 375nm – Intent for Energisation & Vitality / Inspiration

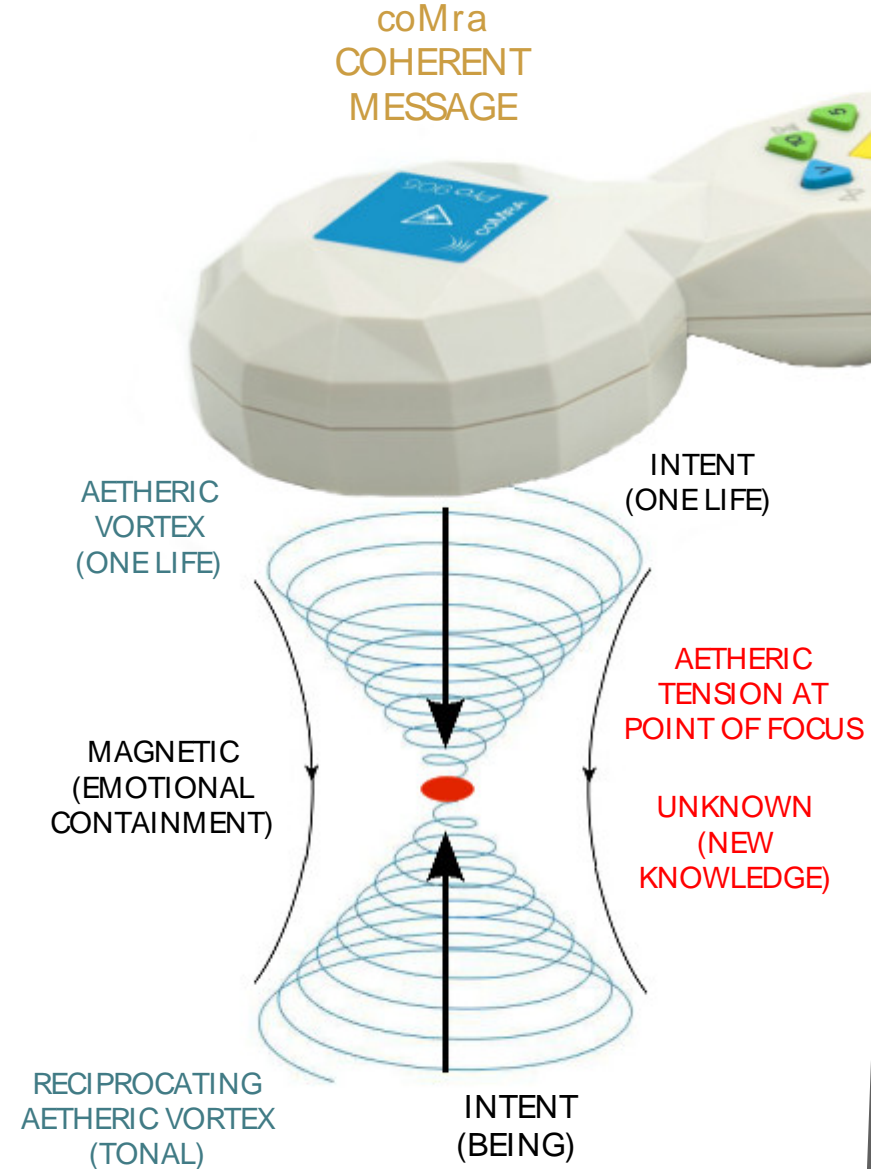

COMRA EFFECT RADIANCES

1. Coherent laser central radiance sets the overall intent for the vibrational message e.g. 980nm for Warmth & Inner Well Being.
2. LEDs set the coloured triangles of the three great bands. The colours represent the Spirit's fourfold purpose within the Aetheric spectrum:
 - **Red Triangle** – East, Expression of the Spirit / Nagal,
 - **Violet Triangle** – West, Expression of Intent,
 - **Yellow/Green** – South/North, Expression of Mind.
3. The magnetic field generated by permanent magnets defines the containment and stability of the Aetheric vortex as it extends between the coMra device and the Tonal.
4. Ultrasound sets the vibration of materialisation into the dense physical form, and the re-organising beat in material form.

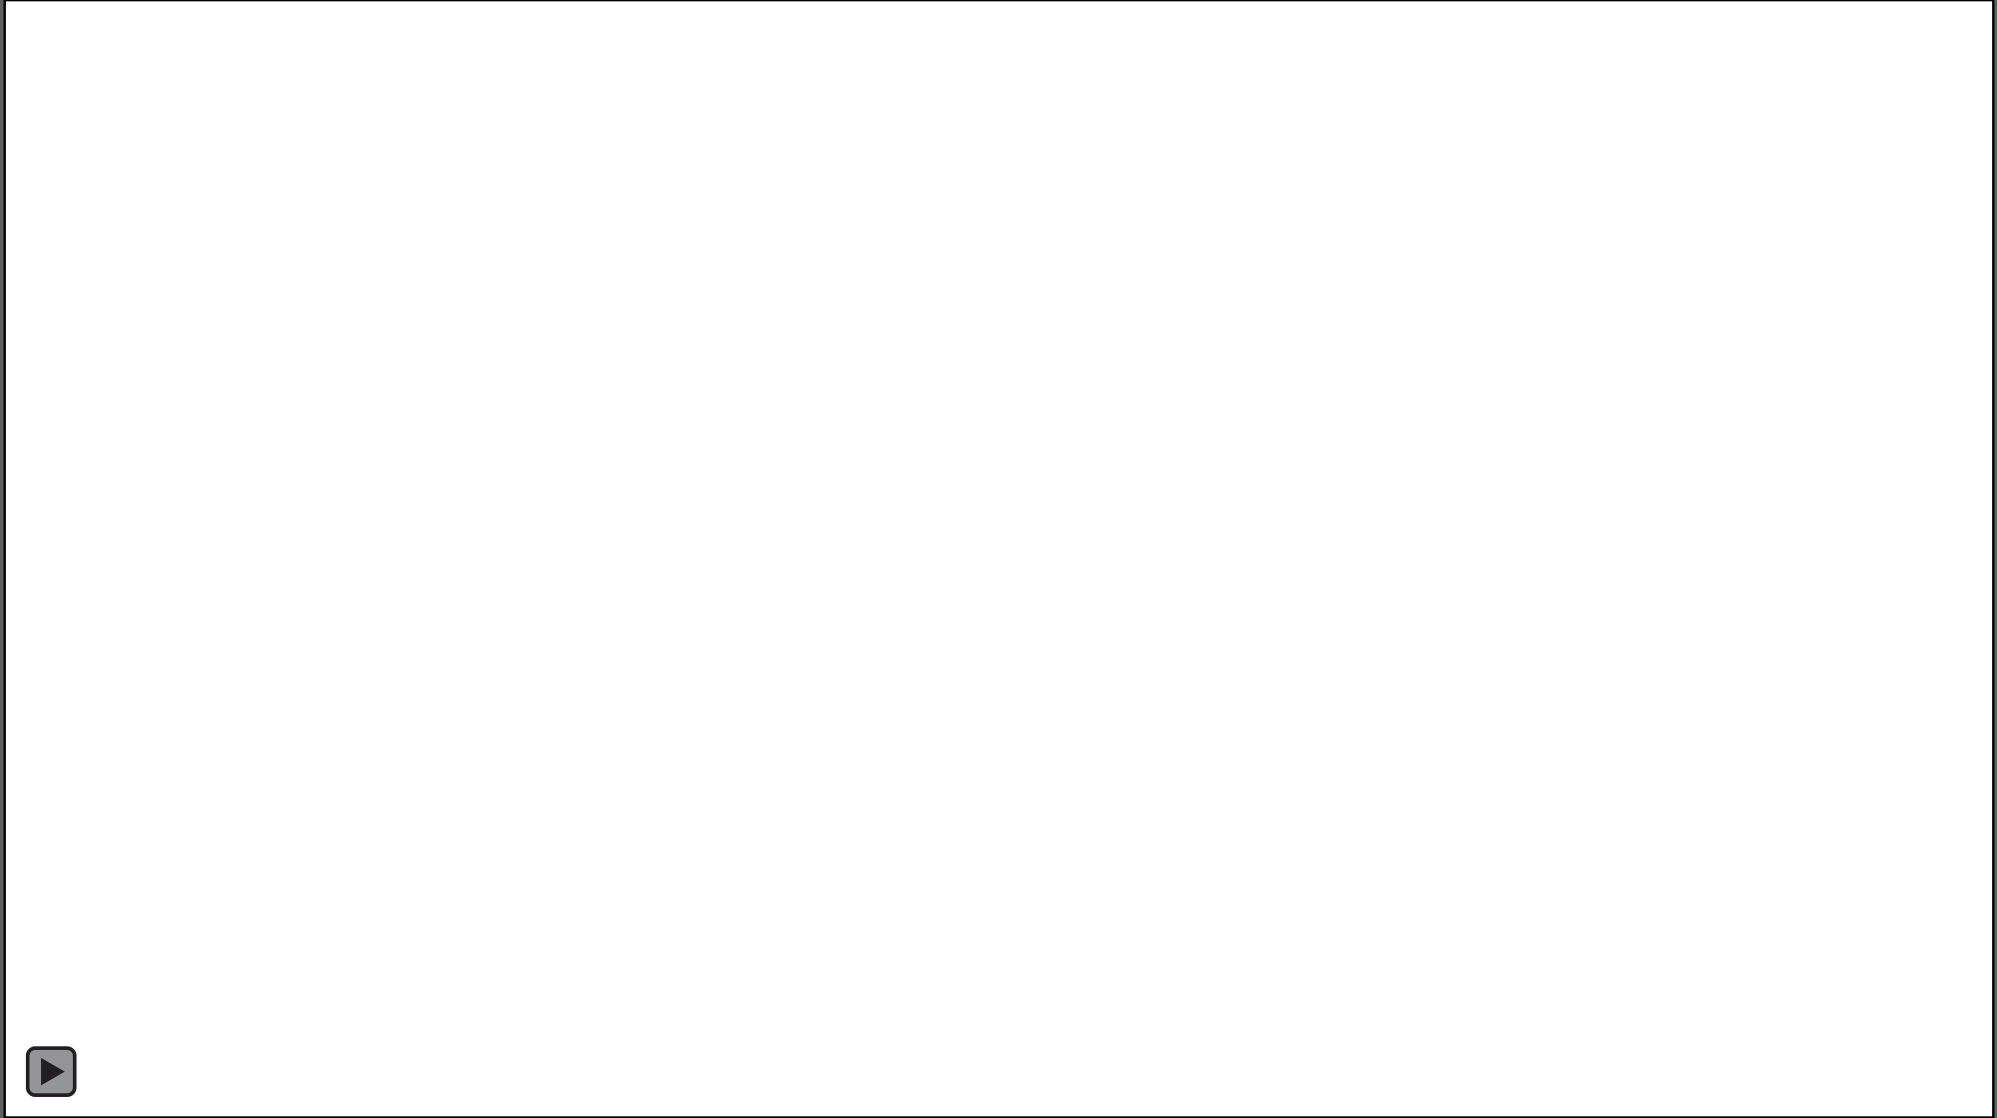

The four radiances are combined with specific geometry, timing, and modulation to coherently combine in the Aetheric spectrum, generating the required vibrational message from the inter-acting jewels of awareness.

THE COMRA EFFECT AETHERIC VORTEX

- The coMra Effect Coherent Message combined with the three rotating Expressions of the Great Bands creates an Aetheric Vortex.
- Intent passes through the centre of this vortex as it emerges from the Aetheric Spectrum into the materialised physical world of form.
- The Vortex is stabilised by Containment from the Magnetic Field or Emotional Impetus/ Expression of Life as it emerges into the form.
- This emerging Intent through the vortex causes the Tonal to Reciprocate by aligning its own intent, calling forth a Second Vortex emerging from the living being (tonal).
- The alignment of intent through both vortices completes the Re-Generative Cycle between the One Life and Tonal, and a Flow of Power is established.
- The focus of the alignment of intent creates a region of extreme Aetheric Tension which opens the Unknown at the Point of Focus.
- The opening of the Unknown at the point of focus allows new knowledge to be synthesised within the being ...encouraging Upliftment, Self-Learning, and hence the Potential for Healing ...

HEALING WITH THE COMRA EFFECT

- For Healing to take place within the being Self-knowledge must be synthesised within the tonal.
- The coMra Effect stimulates and assists in this process by aligning the intent of our inner being with the core Vibrational Principles (combined jewels of awareness) of the One Life:
- Core Principles based on the Inter-acting Jewels of Awareness
 1. Life is a Re-Generative Process – new knowledge must be materialised within the life of the being.
 2. Life is One Inter-Connected Whole – healing occurs when all aspects of the being are co-operating intelligently.
 3. Life is a Natural Process of Evolution – our own inner being is the very best source of knowledge on how to heal the tonal.
 4. Life is Self-Sufficient and Self-Sustaining – the inner being has all the resources necessary to learn, heal, and grow.
 5. Intent is the only Force Pervasive in Sustaining Life – healing can occur only when the intent of the being is focussed on its own healing.

MEDICAL SCIENCE AND THE COMRA EFFECT

- For Healing of dis-ease to take place within the Mental, Emotional, and Physical spheres of the being, the coMra Effect must bring about corresponding stimulation and change in the body.
- If a Living Cell in the body is viewed as the Microcosm of the Macrocosm then all aspects of Cell Balance, Health, and Regeneration are affected by the coMra Effect.
- The Modulated Low-Level Laser increases efficiency of intracellular Adenosine Triphosphate synthesis by up to 200-300%, thus helping the cell to overcome bio-energetic deficit and resume biological work.
- The Modulated LEDs provide regenerative messaging through a rhythmical pattern of Catabolism->Anabolism->Balance that restores physiological cycles of tissue self-renewal, as well as of systemic neuroendocrine self-regulation.
- The Magnetic Field increases efficiency of the photo-biological processes initiated by the Laser and LEDs, making possible their application at very low and safe intensities.
- The Ultrasound provides a mechanical stimulus improving cell restructuring, motility and proliferation, and accelerated enzymatic activity.
- The Coherently Combined Radiances at least doubles the cells' capacity to self-regenerate as one unified Intelligence-Energy-Matter creative process.
- This is supported by 15 years of Research, Trials, and Clinical Practice ...

QUANTUM HEALING AND THE COMRA EFFECT

- Quantum Healing was first coined by Deepak Chopra in his book of the same title in 1989.
- Conventional science considers this area to be a pseudo-scientific mixture of ideas, where known scientific principles have been inappropriately applied or misrepresented.
- In Esoteric Science or the New Science, macroscopic coherence can be explored and demonstrated through experiential perception in the Aetheric spectrum.
- In conventional science Quantum Theory and Mechanics are much more closely related to Aetheric Spectrum Inter-Actions than science is currently aware, and the closest yet that science has come to understanding the underlying nature of reality, or the One Life beyond the Form.
- When more scientists are able to access and explore the Aetheric spectrum through their awareness, Quantum theory will give way to a New Science of Experiential Dynamics, based directly on the Vibrational Synthesis of the Jewels of Awareness, as per Numerology.
- Quantum healing is an attempt to explain the Regenerative Cycle of Life using conventional scientific terminology.
- The coMra Effect is an application of the Regenerative Cycle, but rather expressed used an Experiential Framework of Knowledge.

APPROACH TO ESOTERIC SCIENCE

- The Aetheric Spectrum is a vast exploration of the Great Unknown based on experiential vibrations of the three Great Bands of Man.
- To experience this directly requires considerable Personal Development and Training to work correctly with Feelings and acquire a Fluid Perception.
- Feelings (different from emotions) are Direct Irrational Knowledge that originate in the Aetheric Spectrum beyond our normal perception ... Objective Knowledge!
- Exploration in the Aetheric Spectrum begins by following a feeling obtained in a Vision or Lucid Dream, or Inspiration, or Heightened Awareness, or simply by Intelligently Cooperating with Life ...
- Intent is used to Align and Focus the Perception in order to bring about practical materialisation of this feeling.
- Where additional Clarity is required beyond that currently available in the context, Esoteric Vibrational Modelling Tools such as Numerology and Astrology can be used as a Framework of Understanding for the Intellect, and prior to Direct Experience through feeling ...
- Such tools used correctly can bring additional Clarity about the Principles and Processes of Esoteric Science, and how to Correspond these processes to different systems within life.

- This mechanical momentum acts to give the cells and cellular components enough impetus to assist in their re-arrangement.
- The ultrasound radiance results in a vibrational message of 4 – Stability arising from 4 and 0 – Absolute Potential ...

- The combined message also shows that the healing process is also a Challenge to fully make use of the New Knowledge that arises.
- If this message is ignored or resisted as a whole then the healing could revert to its negative characteristic of -4, that is Inertia, Fixity, and Tending to Decay.
- Holistic healing and medicine requires Responsibility for our own Learning and Health and Well-Being if it is to be fully effective.

The Healing process is affected through the Willingness,
Openness, and Intelligent Co-operation of the Being.

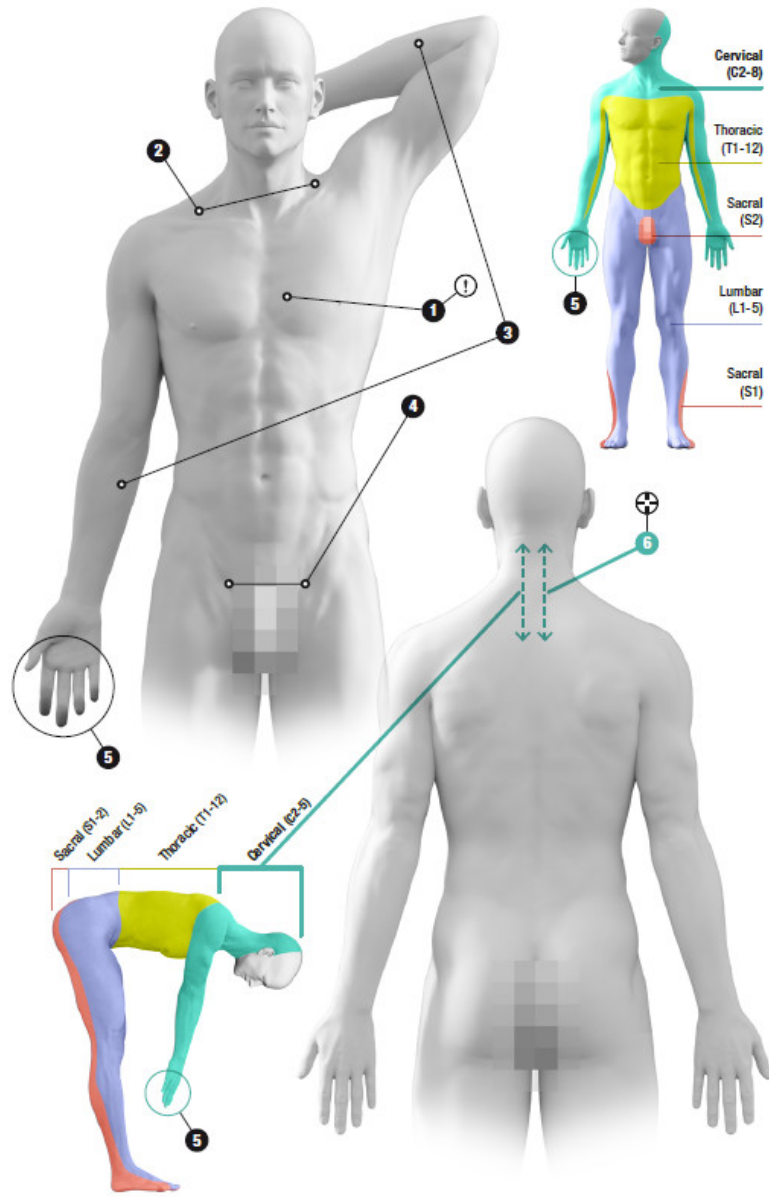

APPLICATION OF THE COMRA EFFECT

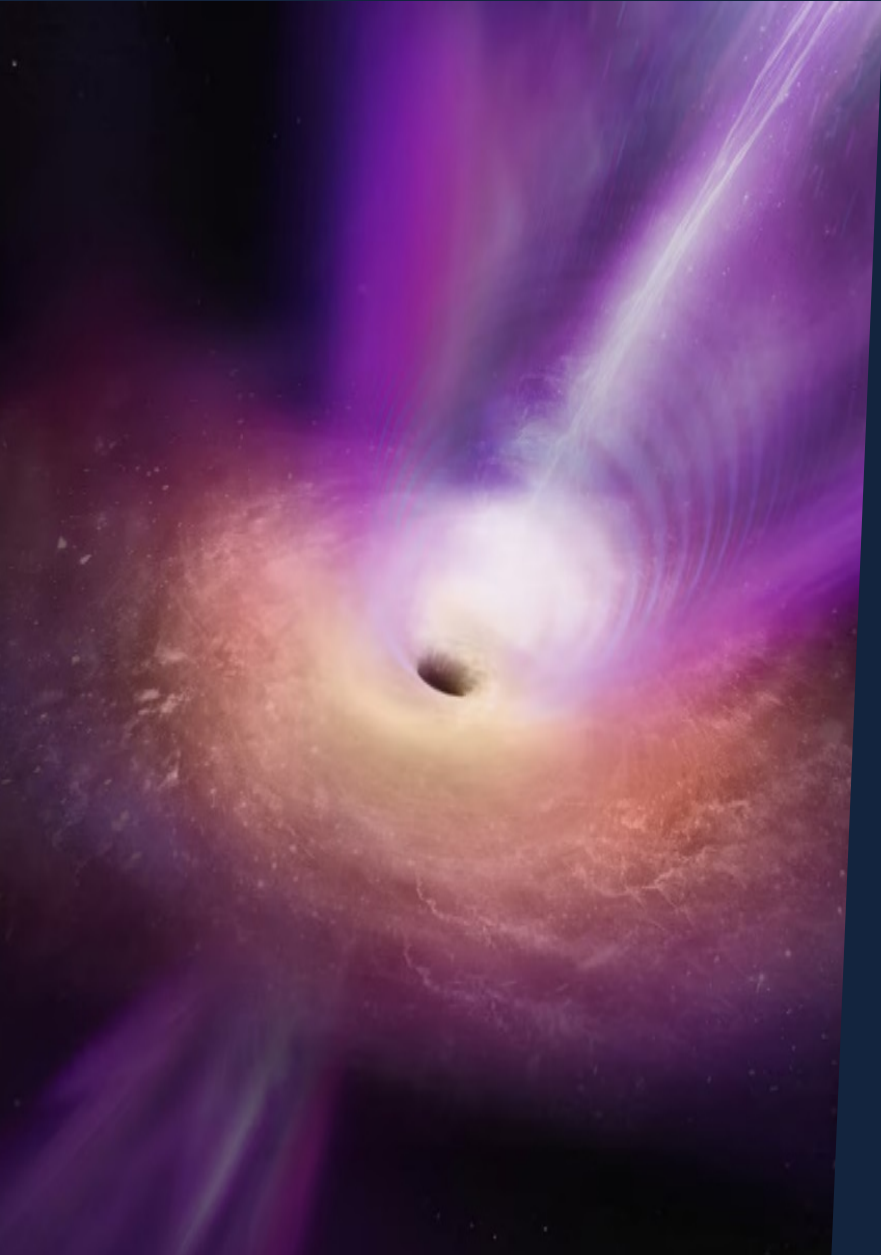

- When the coMra Effect is correctly corresponded into a technology based therapeutic device, it is demonstrated to have considerable benefit for Health, Well-Being, and Healing of Disease ...
- coMra Therapy pioneered by Radiant Life Technologies has demonstrated successful application of the coMra Effect, including:
 - Pain Relief – Drug-free and side-effect free alternative to treat pain, so as to achieve a better quality of life, and promote regeneration of damaged tissue and nerves ...
 - Health & Prevention – Supports the body during abnormal conditions, diseases, injuries, physical and emotional stress, and aids in disease prevention ...
 - Body & Mind Performance - Boosts energy levels and fosters functional reserve in the body, provides hormonal balance and supports mental and physical resilience ...
 - Beauty & Longevity - Works as a comprehensive rejuvenator, fortifying the body's core from within in a natural way ...
 - Animals & Plants – Including accelerated growth and healing, immune support, and pain relief.

TREATMENT USING A COMRA EFFECT DEVICE

- coMra Therapy is applied according to a treatment protocol that uses specific frequencies and times to different points on the body.
- The Protocol treatment points correspond to those physical tissues/organs that corresponding to vibrational qualities that are related to the condition being treated.
- A coMra Protocol is applied as a treatment program over weeks and months, and usually 1-2 times per day.
- Exposure to the coMra Effect is Cumulative, and follows our Intent and Commitment to our own Self-Healing.
- The more impeccable the application of the treatment the more effective and longer-lasting is the healing benefit.
- coMra Treatment supports, through our commitment to Self, our long-term Health and Well-Being – there is no need for recurrence of the same health problems when the required learning has been acquired ...
- Our clinical experience, includes:
 - Reversal of neuro-degenerative conditions,
 - Regeneration and Restoration of severely injured nerves,
 - Restoration of immune function in immuno-compromised patients,
 - Full or partial restoration of function in heart/liver/kidney failure,
 - Partial restoration of vision in diabetic retinopathy ...
- Numerous Case Studies are available at Comra-Therapy.com
